

Weare Center Advisory Group
01-25-05

Matt Thomas, chairman of the Weare School Board, presented the latest proposal for the construction of a new middle school facility on the existing middle school site and adjacent town property in Weare Center.

An information exchange followed.

Since the advisory group's focus has been on the same property now being considered for the new school, it was decided to put any further work on hold pending the outcome of the vote in March.

Accordingly, there will be no February meeting of the advisory group. Paul Doscher and Tom Clow will communicate with the members after March 8th.
